PROFESSIONAL PROFILE

Junior full-stack developer with hands-on project experience building TypeScript/React and Python/FastAPI applications. Developed REST APIs, PostgreSQL data models, OAuth integrations, Docker-based environments, and multi-step AI workflows. Brings six years of project-management experience, with strengths in ownership, prioritization, analytical problem-solving, and cross-functional communication.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), Python, SQL
Frontend: React, Next.js, Tailwind CSS, responsive UI
Backend & APIs: Node.js, Express, Next.js Route Handlers, REST APIs, FastAPI, Flask, Zod
Data & Tools: PostgreSQL, SQLite, Prisma, SQLAlchemy, Alembic, Git, GitHub, Docker, Docker Compose, Postman, Cursor

TECHNICAL PROJECTS

VideoMaker - AI-Assisted YouTube Production Pipeline

2026 - Present

Independent Software Developer | TypeScript, React, Next.js, SQL

- Built a full-stack workflow for topic intake, script generation, evaluation, visual planning, asset generation, and final rendering.
- Implemented shared-context AI workflows with checkpoint and resume logic so long-running jobs can recover after failures.
- Created typed domain models and persistent SQL job state for scripts, scenes, voiceover, subtitles, and renders.
- Developed a React operator interface for batch controls, status tracking, and resume or cancel actions.

BeautyTask Manager - Appointment Management Platform

Jan 2026 - Present

Independent Software Developer | FastAPI, React, PostgreSQL

- Built and deployed a full-stack appointment management application currently being tested by real users.
- Implemented Google OAuth sign-in and Google Calendar authorization, including refresh-token handling and calendar synchronization.
- Integrated WhatsApp messaging and a Stripe payment flow in test mode; no live payments are processed.
- Managed PostgreSQL persistence with SQLAlchemy and Alembic migrations, and containerized the application with Docker Compose.

ADDITIONAL EXPERIENCE

Project Manager - Maintenance Operations | EULEN

Jan 2020 - Dec 2025

- Coordinated maintenance operations and teams, prioritized work, tracked milestones, and communicated progress across high-responsibility environments.
- Built transferable strengths in analytical problem-solving, time management, ownership, and cross-functional collaboration.

EDUCATION & TRAINING

Meta coursework | Coursera | 2026 - Completed courses in front-end development, version control, JavaScript, React, Python, databases, Django, and APIs

The Complete Python Pro Bootcamp | Udemy (Dr. Angela Yu) | Completed 2026

Degree in Social and Cultural Anthropology | UNED | 2022
